Descripción

Características

The LED CANNON is specially designed to illuminate large objects, facades of buildings, bridges, churches, statues, ...Rental companies can use this powerful LED-projector also to light up entire stage areas and live concerts.Thanks to its IP66-rated diecast ALU-design with tempered

glass lens covers, it can also be used for fixed outdoor installations. With a massive light output of over 18000lm (17700lux@2m) this projector has a maximum projection distance of over 230m! Based on 180 powerful 3W LEDs (44 x Red, 44 x Green, 44 x Blue, 24 x White, 24 x Amber) Amber and white LEDs can be used to make nice pastel or deep saturated colors. 2 Individual projector panels can be controlled independently (each panel a different color) The two panels with 30° beam angle can be individually oriented to perfectly cover any surface. Different DMX Control modes: 3,4,5,6,7,10 or 17 channels, including HSV-control Wireless DMX Receiver Included (original industry standard "Wireless Solution" from Sweden) Very low power consumption compared to projectors based on discharge lamps: only 620W at full power. Onboard LCD-display for easy navigation in the setup menu. Natural convection cooling, no noisy fans needed! Even a specially build flight case is included!

Información Técnica

Light Source LED Qty. : 44x Red, 44x Green, 44x Blue, 24x White, 24x Amber Drive Current: 1000/ 700mA Color Range: 16.7 million additive RGB colors with full saturation control and amber depth control

Power Input Voltage: 100~240V 50/60Hz Max. Power : 620W

Control On-board: Display for Auto and Custom control Protocol: DMX512, different channel modes

Onboard wireless DMX (industry standard "Wireless Solutions" from Sweden)

Physical aspects Dimensions: 808x252x567mm Weight: 40Kg Housing: Diecast aluminum, powder coated finish color: Black Lens plate:

Tempered glass Fixture Connection: Data in/out, Power in (IP67 rated) Cooling: Natural convection

Certification and Safety Certification: CE, cETL Environment: Dry, Damp, Wet Location IP66 (with LED display cover installed) Operation Temperature: -20°C ~45°C

Output Max. Flux: 18000lm Peak Intensity: 190000cd

Optical System Dimmer: 0-100% Strobe: 0-20Hz Optics: 30° on both projectors (5°, 15°, 55° or 25x6° only on special order, check our sales for delay and extra cost)
